

Christened "**iBUS**", Ashok Leyland's futuristic concept vehicle was showcased at Auto Expo 2008. Assimilating the latest technological advances the Company has to offer for the urban transportation sector, "**iBUS**" is also made practical for immediate absorption onto Indian roads. Conceived and developed by a group of Young Executives within a record schedule, "**iBUS**" stands for "Indian", "Innovative" and "Intelligent" and comes with a host of features that are both passenger and driver friendly. Widely acclaimed by media, customers and the general public for its uniqueness and attractive features, "**iBUS**" promises a new chapter for urban travel in emerging India.
