

SAE India Foundation

SAE is a network of engineers, executives, educators and students from more than 90 countries who come together to share information and exchange ideas for advancing the engineering of mobility systems. SAEINDIA currently has five sections in India. There are about 1900 regular members and more than 11000 student members in SAEINDIA and the membership is being continuously increased.

In recognition of the important contributions made by these members/engineers and realizing the critical need for educational support, the SAE India Foundation was incorporated on July 19, 2001 as an All India charitable society with the registrar of Societies Delhi. The funds raised by SAE India Foundation will be used to support educational activities including collegiate design programs, engineering scholarships, industrial lectureship programs, and financial assistance to students, engineers, scientists, and other outstanding contributors to mobility technology in India. The source of funds for this society shall mainly comprise of donations from corporate, allied societies, individuals and sponsorships.

We look forward to your positive response for generous contributions to the foundation. All of the funds raised by the SAE India Foundation will be utilized in India to support educational activities including undergraduate engineering scholarships, Doctoral Scholar programs, Industrial Lectureship programs, Collegiate Design programs and other awards.

We expect generous contributions for this noble cause, which will go a long way towards achieving our objective of advancement of mobility technology. The contribution cheques/drafts may be made in favor of 'SAE India Foundation' payable at New Delhi and sent to Mr. A.D. Sindwani, Secretary of the Foundation at the following address.

A.D. Sindwani,
